CITY OF CHARLESTON ACTIVATES NEW TRAFFIC SIGNAL

On Tuesday, April 6, 2010 the City of Charleston will activate a new traffic signal at the intersection of Savage Road and Henry Tecklenburg Drive. The motoring public is asked to take notice of the new traffic signals and observe caution while driving through the area.

The new traffic signal is being installed by the City of Charleston Department of Traffic and Transportation to improve safety at the intersection and to facilitate the movement of traffic flow in the area. The new traffic signal will facilitate the use of Henry Tecklenburg Drive, Ashley Town Center Drive and Savage Road for motorists needing alternate access to Savannah Highway from the Glenn McConnell Parkway and Magwood Road. The City of Charleston's Department of Traffic and Transportation would like to thank St. Francis Hospital, H.H. Hunt Properties, and the citizens in the surrounding area for their support as well as the South Carolina Department of Transportation for authorizing this new signalization in West Ashley.
