comment	Andrew	Gould	null	21 Catfiddle Street	null	The Cannonborough/Elliottborough Neighborhood Association continues to support the proposal, as it has the big functional porches and carved-out massing that we advocated for, and it successfully reads as a single confident building. I do wonder if it has lost a bit of interesting detail and variety in the latest iteration. Such a large building would benefit from a few 'special' details here and there as a relief from so much consistency. Also, as we mentioned in a previous letter, we'd really like to see strong urban paint colors, not this timid color scheme that looks so suburban. Those would be our two comments moving forward. We support conceptual approval.	6	244 St Philip Bldg 3	null	null	Apr 26 2022 11:02AM
