City of Charleston Responds to Cannonborough-Elliottborough Street Sweeping Requests

Charleston, S.C.—Following the success of the street sweeping towing program in Harleston Village and Radcliffeborough, Cannonborough-Elliottborough is the latest neighborhood to request to join the program.

The city of Charleston will begin towing illegally parked vehicles during street sweeping periods Tuesday, September 26 and Wednesday, September 27.

To minimize disruption, the city's Business and Neighborhood Services division has been leading an ongoing effort to raise awareness of the new program among neighborhood residents prior to its implementation.

Su Griffin, the city's manager of Business and Neighborhood Services, said, "We hope that, as it has in other neighborhoods, the implementation of this program in Cannonborough-Elliottborough will improve the efficiency of the street sweeping services provided. Our goal leading up to this program launch is to continue raising awareness in order to, hopefully, avoid towing any vehicles."

Street sweeping in Cannonborough-Elliottborough is completed the fourth Tuesday and Wednesday of every month between 10:30 a.m. and 12:30 p.m. During the scheduled street sweeping periods, on-street parking is restricted to enable crews to effectively sweep the streets to improve drainage and maintain a clean neighborhood.

Notice regarding towing enforcement and the street sweeping schedule is displayed on the area's street pole signage. Residents can find additional information and sign up for email reminders at bit.ly/chsstreetsweep.
