PUBLIC MEETING

Share your vision for protecting,
restoring, and increasing
Charleston's tree canopy coverage.

Meeting Location

College of Charleston
School of Business
Wells Fargo Auditorium (Room 115)
5 Liberty St., Charleston, SC 29401

Thursday, June 15, 2017
5:30 p.m. to 7:00 p.m.

“TREES TO OFFSET WATER”- $Trees_2O$ H_2O

Charleston was selected for a study about beneficially integrating trees into the City's stormwater management programs.

Trees improve air quality, provide shade, decrease erosion, remove pollutants from stormwater, and can soak up a tremendous volume of stormwater. The South Carolina Forestry Commission is studying Charleston to see if we can use more trees to help us reduce flooding and improve water quality in our lakes, wetlands, springs, and rivers. Your opinions and ideas are needed. We hope you will come share them at this meeting!
