Therapeutic Recreation

Therapeutic Recreation is the practice of using purposeful recreation and leisure to address the specific needs and goals of everyone in our community, no matter the ability. We believe that every person should be able to participate in recreation activities with no issues, barriers, or hindrances. Our programs take a holistic, inclusive approach that provides a positive environment for every participant to learn a new skill or sport, be more active, develop social skills, and have fun!

Unified Sports are inclusive sports programs that combine an approximately equal number of Special Olympics athletes (individuals with intellectual disabilities) and volunteer partners (individuals without intellectual disabilities) on teams for training and competition. Smaller fields and modified equipment may be used to ensure fairness and safety for all.

Pre-registration is required for all programs.
