

Back **2** Business

Changing What's Possible

A Safe Work Environment

At MUSC Health, we know you want to get back to business—with confidence and assurance that you can provide your employees, customers and clients a safe, healthy environment. Understandably, many have questions about how to adapt to this “new normal” in the workplace.

That’s why MUSC Health has launched **Back2Business** to help business owners and organizations reopen smoothly and seamlessly, and follow the latest evidence-based guidelines for maintaining a safe environment.

Our health professionals will provide area businesses with customized services and resources from preparations for reopening to implementing and managing maintenance and mitigation strategies. And throughout the course of the COVID-19 virus pandemic, our team will be available to re-evaluate and adjust resources as needed.

	\$	\$\$	\$\$\$

MUSC Health also offers COVID-19 diagnostic and antibody tests for businesses as an a la carte service.

Our testing protocol/ services are designed to meet specific client needs and can be purchased separately (e.g., larger firm may not need Back2Business general guidance).

Testing Options

Diagnostic testing (PCR)

Testing \$100/test

Antibody testing

Testing \$50/test

On-site or near-site testing options are available for large employers.

Pricing

Next Steps:

Please fill out the MUSC Back2Business form available [here](#).

A Back2Business representative will respond within 2-3 business days with a quote based on your responses.

As South Carolina's health care leader, MUSC Health is committed to restoring our community's physical and economic health. Contact MUSC Business Health, businesshealth@musc.edu, to learn more about how MUSC Health Back2Business can serve you.

The MUSC Health Back2Business Standards are based on guidance from the CDC, infection control protocols, hospital cleaning standards and other evidence based findings. The Standards are not intended to replace existing requirements, but rather to supplement those requirements in light of the challenges posed by COVID-19. **Employers are responsible for compliance with all applicable laws, rules, and regulations, including but not limited to requirements of the Occupational Safety & Health Administration and the Employee Retirement Income Security Act. We suggest that employers consult their legal or regulatory counsel for additional information.**
