### HOW TO RECYCLE

Make sure you are putting the right items in the right place! Ask yourself:

- **Is it cardboard, glass, metal, or a plastic container?** If not, it belongs in the trash. Cardboard should be flattened & secured.
- **Is the container empty?** Food, liquids, and other materials need to go in the trash.
- **Non-recyclable items:** Clothes, containers with food (ex. pizza boxes) , dog waste, diapers, styrofoam, go in the trash.

Sign-up for **Charleston County Business Recycling at (843) 720-7111** or visit their website to learn more at [www.charlestoncounty.org/departments/environmental-management/business-recycling.php](http://www.charlestoncounty.org/departments/environmental-management/business-recycling.php)
