This estimate uses the 2020 Census population as a base plus the number of persons annexed, plus persons gained by new residential construction, minus persons lost by residential demolition. Persons gained by new residential construction is calculated using 98% of the number of single family (S/F) housing units plus 98% of the multi-family (M/F) housing units permitted in the listed calendar years (minus the vacancy rate of 12.65%) multiplied by 2.15 (City of Charleston persons per household from the 2020 Census). Persons lost by residential demolition is calculated by number of housing demolition permits in the listed calendar year multiplied by the vacancy rate and persons per household.
