RE: 22-P026R – Zoning Code Rewrite

This addendum #2 to the solicitation is being made for the following reasons:

Q-1 As described in the RFP, the City wants a zoning code in an interactive user-friendly format. Has the City seen any web services that will meet this requirement in whole or in part?

A-1 Not specifically. This would be something that we would want to work with the selected team on and are looking for advise based on the direction the project takes in the development of the code.

Q-2 Regarding the Integration of the New Code into a User-Friendly Format (last bullet listed on page 33 under the Scope of Services):

a. Would the City be open to a standalone proposal from any vendors that partner with Municode, for us in drafting and commenting, publishing interim and final drafts, soliciting public input, and codifying the New Code upon adoption?

b. Or, alternatively, does the City prefer for a vendor to be a sub-consultant to the prime firm selected for code rewrite process?

A-2 We would prefer that any proposals be as part of the project team’s collective response.

If you have any questions, please feel free to call 843-724-7314. Thank you in advance for your cooperation.
