# DRIVE RIGHT

 city of charleston

## DRIVE SENSIBLY

-  Bicycles are considered vehicles and should be given the appropriate right of way
-  Give cyclists space to take the entire lane when hazards, road width or traffic speed dictate
-  Motorists should reduce speed to allow extra time for cyclists to traverse intersections

## DRIVE CONSIDERATELY

-  Scan for cyclists in traffic and at intersections
-  Do not blast your horn in close proximity to cyclists
-  Look for cyclists when opening car doors

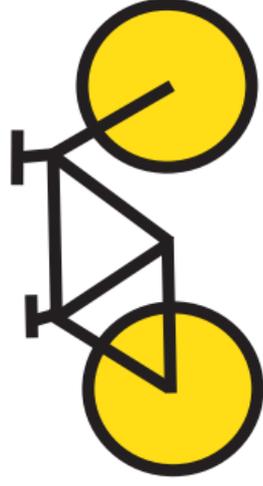

## DRIVE CAREFULLY

-  Wait until road and traffic conditions allow to pass safely
-  Reduce speed and leave at least three feet of space between your car and a cyclist when passing
-  Check over your shoulder after passing a cyclist before moving back to normal position

## DRIVE WISELY

-  Children on bicycles are often unpredictable - expect the unexpected and slow down
