Director

Geographical Information Systems (GIS)

OPEN DATA DAY 2025

Housekeeping

OPEN DATA DAY 2025

This presentation is being **recorded** and will be available on the **City's YouTube channel.**

Participant **video and microphone are off.**

If you have questions, please use the **Q&A** function.

Visit **www.charleston-sc.gov/OpenDataDay** for access to data, contact information, and resources.

What is Open Data Day?

Open Data Day highlights the value of Open Data: information collected and maintained by the City that is made easily accessible to the public.

Demonstrates how the City uses data to support services and shows residents, businesses, and researchers how they can use this information for their own projects.

Why We Do It

Innovation | Accountability | Data Quality | Community Engagement

- **Open Data Policy adopted in 2021**, committing to transparency and public access to information.
- The City's **Open Data Portal** *(updates coming in 2026)* will continue to publish datasets from departments across the organization for public use.
- Have questions about city data?
    - Submit requests to the **Citizen Services Desk!**

Agenda

9:00	Welcome!
