 - Schools register their participation via Google Form signup.
 - Theme is "coastal critters" and partnering with SC Aquarium to display sculptures!
 - PalmettoPride has something similar, with funding for schools that officially register for the project
 - Funding would cover base for sculpture and materials needed to construct it

POINT for Volunteer Management

- <https://volunteersc.org/>
- Darby wants to ensure that our volunteers have meaningful experiences with the organization, so she found a volunteer management platform that helps streamline a lot of the processes
- After researching many different CRM options, she selected POINT
- It can be embedded into site, lots of user friendly options
- Has options for public events, private events, group events, fundraising events
- One thing it is missing is an integrated newsletter interface, so we will continue to use Mailchimp

Activities!

 - Turtle display made out of cigarette butts that the team wants to name for outreach
